

Our Company

Sentifi is a Swiss tech company and provider of alternative data analytics. Our enterprise solutions are used by the world's leading financial services organizations whilst our media solutions are integrated on the websites of more than 50 publishers in Europe and Asia.

Sentifi uses AI, big data and collective intelligence to listen to and categorise over 14 million qualified financial influencers. That's how institutional and private investors gain unique insights on over 50 thousand publicly traded companies, currencies, commodities, and the events that impact them. Our customers use this insight to make better investment decisions and stay ahead of the curve.
